School Transport Rules & Regulations

Dear parents,

We ask for your help by:

- Insuring that your child (ren) is on time every morning and that he/she does not make the bus wait because every delay, no matter how short it may be, accumulates and causes a big delay in arriving to school, which in turn disturbs the morning classes.
- Being present on time when the school bus drops your child (ren) in the afternoon.

For security reasons, for preventing route disruptions and delays, it is strictly forbidden to ask the driver to make a missed call when he arrives to your home. Parents or other caretakers must be waiting to recuperate their child (ren) immediately on arrival.

Informing us of your child's absence or if he/she has been picked up during the day for any particular reason. Kindly, send an email on accueil2.bahrein.lycee@mlfmonde.org

Please be advised **that any student subscribed in the school bus service, has no right to take another bus other than his/hers own destination nor is he/she allowed to be dropped off at another address even if it's in the same bus' itinerary (except in cases of force majeure and only with the Administration's consent).**

- Students are expected to wear the seat belt at all times throughout the journey till they reach their assigned stop.

Procedures

Approximately 200 students take the bus, 40 buses to fill daily, 10 parking spots inside the school. This requires a rigorous organization and everyone's participation (students included).

When the board indicating the bus destination, is placed on the windscreen, the students must head to their buses and settle in.

The Kindergarten students are then brought out by the school personnel and placed in the buses. After which, we check that all the children in the list are onboard, buckled up and that there is a nanny present. If any of the above conditions is missing, the bus does not leave the school premises (which can cause delays).

If a Kindergarten or Primary student is not onboard, we look for him/her everywhere in the school. The bus waits till the student is onboard.

If a secondary student is not onboard on time, the bus leaves without him /her. It is up to the secondary students to make sure they take the bus. If they miss it, they will take the next bus. It is up to them not to delay the younger students.

Therefore, we request you to explain to your children the importance of getting on the bus immediately after the classes are over.

Please note:

The opening of a bus line is dependent on a minimum enrolment of students.

Term Registrations for the buses involve a firm commitment of families and are not eligible for any refund in case of cancellation.

Statement and commitment

I undersigned (Parent):-----promise:

- To provide all information necessary for the school administration and updated it whenever it is necessary.
- Be personally or represented, with my children who are less than 11 years old, at the point of arrival of the bus,. Or bring them to the school when no one is there to welcome them.
- Settle the costs of repairing the damage caused by my children.
- Teach my children how to observe safety measures by going to and from school; wait at the gathering point for the bus arrival; Get in and off the bus as following:
 1. Do not transgress safety rules or put their lives or the lives of others at risk inside the bus.
 2. Do not get off the bus before its arrival at school or at the specified endpoint.
 3. Do not behave badly or disturb others or participate in problems or have aggressive behavior.
 4. Notify the School administration of any offence related to the cleanliness of the bus or the bad behavior of the driver or other.

We declare that the school administration has the right to prevent my child from taking the bus in the following cases:

- If he continues to transgress safety rules and regulations; if he exposes his life or the lives of others at risk in the bus, morning and evening.
- If he continues to have a bad behavior, annoy others; be aggressive with others on several occasions.
